

**Drexel University Alumni Association – Social Dragons Program  
Volunteer Roles & Responsibilities Agreement**

The purpose of the Social Dragons Program is to create a meaningful volunteer opportunity for alumni to engage with the university while furthering the reach of Drexel social media messaging. We hope to advance campus programs and shape future campaigns through the help and feedback of our volunteers. A group of engaged and dynamic volunteers brings more alumni into the community which will increase participation, strengthen our relationship with our alumni, and continue to improve our university’s programs.

All Alumni Association volunteers must commit to work together in the best interests of the Alumni Association and the university and not for personal, political, third party, or financial gain. Specifically, volunteers must agree to the following:

- Regularly create, share, tag, react, or comment on Drexel Alumni social media content. Individual members can select which platforms they prefer.
- When requested, provide timely feedback and input on new ideas for content and the further growth of the program.
- Serve as a positive representative for the Alumni Association and the University by conducting yourself in an informed, appropriate and professional manner.
- Acknowledge and respect other volunteers and their contributions, talents, efforts and dignity. Treat them equally as peers.
- Be courteous and respectful of other volunteers’ opinions. Participate in open and honest communication and discussion in a responsible and respectful way.
